  I would like to see more information about ‘inter-disciplinarity’ in public health and how this relates to teaching of ethics. The term is mentioned on pages 15 and 16.
  Page 12. Econonics and values. Could you say more about this and how the current economic theories and structures interact with the ethics of public health.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
