Reviewer's report

Title: The development of a brief and objective method for evaluating moral sensitivity and reasoning in medical students.

Version: 2 Date: 19 January 2004

Reviewer: Johane Patenaude

Reviewer's report:

Authors have responded to the Minor and Major Compulsory Revisions. They essentially removed objective 3 (« to examine the validity of combining two tests, i.e. forming the test battery ») in the present version and, in this way, resolved many problems.

What next?: Accept without revision

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable
