Reviewer's report

**Title:** The Development of a Web- and a Print-Based Decision Aid for Prostate Cancer Screening

**Version:** 5 **Date:** 12 November 2009

**Reviewer:** Dragan Ilic

**Reviewer's report:**

**Major Revisions**
The authors have adequately addressed the issues raised regarding the qualitative framework and details of the focus groups, by redefining their techniques as usability testing.

**Minor Revisions**
The authors have also adequately addressed the issues regarding potential limitations associated with using a usability testing technique. They have also provided sufficient information detailing the content and framing of the decision aids.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
I declare that I have no competing interests.
