Reviewer’s report

Title: Informing advance directive discussions for patients with COPD at the point of care: A decision analysis.

Version: 4 Date: 24 November 2010

Reviewer: Michele Vitacca

Reviewer’s report:

The authors have tried to improve their previous paper. Some parts have been improved. In my opinion it remains a manuscript difficult to read and follow. I think authors cannot further improve their paper.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
