Reviewer’s report

Title: Use of a health information exchange system in the emergency care of children

Version: 2 Date: 29 November 2011

Reviewer: George Kim

Reviewer’s report:

Improved from the original submission. Answered the questions, this is more of an exploratory article about HIE use. Not crazy about the use of the word "novel" in describing some of the uses of the HIE link.

Would highly recommend the use of another word than "novel".

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
