Reviewer's report

**Title:** Evaluation of the use of decision-support software in Carcino-Embryonic Antigen (CEA)-based follow-up of patients with colorectal cancer

**Version:** 3  **Date:** 31 January 2012

**Reviewer:** Dimitri Aristotle Raptis

**Reviewer's report:**

The authors have adequately addressed all major issues regarding their manuscript and I would recommend its publication.

I personally hope that other hospitals will use this software and further evaluate its impact on ameliorating the follow up of patients with colorectal cancer.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests.
