Reviewer's report

Title: Challenges and Requirements for Guidelines Systems

Version: 1 Date: 25 August 2011

Reviewer: Gregory Downing

Reviewer's report:

This is a well written perspective on guidelines for developing clinical decision support tools with a focus on semantic web features. The document should inform discussions and work across a wide variety of technology developers, health systems, and clinical informatics experts.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
