Title: Studying the Potential Impact of Automated Document Classification on Scheduling a Systematic Review Update

Version: 3 Date: 21 March 2012

Reviewer: byron wallace

Reviewer's report:

While I still have some reservations regarding the applicability of the proposed method, I feel the authors have done a commendable job addressing the comments as best they presently can. I also feel the problem itself is interesting, and that this paper thus warrants publication in its current state.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
