Title: Testing a Spanish-language colorectal cancer screening decision aid in Latinos with limited English proficiency: results from a pre-post trial and four month follow-up survey

Version: 1 Date: 20 April 2012

Reviewer: Myriam Torres

Reviewer's report:

The article is really good and very well written. It definitely addresses a huge need in the Latino community. my only suggestion is to include a line or two describing how the initial baseline pre-test and post-test was administered. Considering the low levels of education of the participants I imagine it was face-to-face?

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
