Reviewer's report

Title: A Systematic Review of Healthcare Applications for Smartphones

Version: 2 Date: 26 May 2012

Reviewer: Matthew F Bultitude

Reviewer's report:

The authors have addressed my concerns where they have needed to. The accuracy of data and medico-legal aspects have been added, as has a section on the limitations of their review.

Overall this appears to be a long but thorough report on Healthcare applications for smartphones. This is increasingly a big industry which will keep expanding.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

No.
