Reviewer's report

Title: Cost effectiveness of a computer-delivered intervention to improve HIV medication adherence

Version: 2 Date: 16 January 2013

Reviewer: Omar Galarraga

Reviewer's report:

The methods and results are clearer now, and the discussion more balanced. The additional details in the tables and appendices are also helpful. A couple of minor details: Table 1 has four references that need to be updated or included. Page 30, which is blank, should be removed.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
