Reviewer's report

Title: Computer-aided DSM-IV-diagnostics - Acceptance, use and perceived usefulness in relation to users’ Learning Styles

Version: 4 Date: 22 November 2004

Reviewer: Eta Berner

Reviewer's report:

General

Paper is now acceptable.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:

I declare that I have no competing interests.
