Reviewer's report

Title: An overview of the design and methods for retrieving high-quality studies for clinical care

Version: 2 Date: 14 May 2005

Reviewer: William Hersh

Reviewer's report:

General

The manuscript is now fine and can be accepted as is.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
