Reviewer’s report

Title: Audio computer-assisted self-interviewing (ACASI) may avert socially desirable responses about infant feeding in the context of HIV

Version: 6 Date: 5 July 2005

Reviewer: Marek Brabec

Reviewer’s report:

General
The authors corrected the problems indicated in previous reviews. The paper is really interesting to read, now. My best wishes for the publication and subsequent work.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
