Reviewer’s report

Title: Access, use and perceptions regarding Internet, cell-phones and PDAs as a means for health promotion for people living with HIV in Peru

Version: 3 Date: 17 July 2007

Reviewer: Sarah Flicker

Reviewer’s report:

I think the authors did a fine job addressing comments and I would recommend the paper for publication.

I would add however that it needs a careful copy editing. There are still some minor grammatical errors throughout (likely due to ESL issues).
