Reviewer's report

Title: Access, use and perceptions regarding Internet, cell-phones and PDAs as a means for health promotion for people living with HIV in Peru

Version: 3 Date: 19 July 2007

Reviewer: Helene Antoine Claire Marie Voeten

Reviewer's report:

General

The authors have been able to revise the manuscript including all of my comments/suggestions, and I feel it has really been approved. I do not have any comments/critiques left.

------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

------------------------------------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
