Reviewer’s report

Title: Instruments to assess the perception of physicians in the decision-making process of specific clinical encounters: a systematic review

Version: 2 Date: 14 September 2007

Reviewer: Martin Dawes

Reviewer’s report:

General
This is ready for publication.

------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
