**Reviewer's report**

**Title:** Using machine learning algorithms to guide rehabilitation planning for home care clients

**Version:** 2 **Date:** 6 November 2007

**Reviewer:** Enzo Grossi

**Reviewer's report:**

**General**
The authors have carefully completed the requested revisions to the subject manuscript which now is clearly improved. I consider the paper now acceptable for publication.

----------------------------------------------------------------------------------------------------------------------------------------

**Major Compulsory Revisions** (that the author must respond to before a decision on publication can be reached)

----------------------------------------------------------------------------------------------------------------------------------------

**Minor Essential Revisions** (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

----------------------------------------------------------------------------------------------------------------------------------------

**Discretionary Revisions** (which the author can choose to ignore)

**What next?:** Accept without revision

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**
