Reviewer's report

Title: Evidence-Based Medicine among Internal Medicine Residents in a Community Hospital Program Using Wireless Mobile Devices.

Version: 1 Date: 4 December 2006

Reviewer: Rajesh Aggarwal

Reviewer's report:

General
---------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
1. Shorten introduction (detailed above)
2. Comment upon extra time taken to use these resources on the hospital round.
---------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

---------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

---------------------------------------------------------------------

What next?: Unable to decide on acceptance or rejection until the authors have responded to the major compulsory revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
