Reviewer's report

**Title:** Is there scope for community health nurses to address lifestyle risk factors? The Community Nursing SNAP Trial

**Version:** 2  **Date:** 2 November 2011

**Reviewer:** Marie Carney

**Reviewer's report:**

The paper is well written, the research question clearly defined and the conclusions clear. The study was carried out in 4 community areas in Australia amongst 804 respondents.

Findings are interesting, comprehensive and applicable worldwide.

The study presents base line findings.

The study explores interventions around 5 lifestyle interventions.

Risk factors for life style are an important area for research.
