Reviewer's report

Title: Implementation of case studies in undergraduate didactic nursing courses: A qualitative study

Version: 2 Date: 5 November 2012

Reviewer: Kim Jocelyn Usher

Reviewer's report:

The work requires further review of the data analysis process and the findings need to be reviewed as they are not yet at the required level of abstraction.

There are also several editing issues that need to be corrected prior to publication of the paper.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
