Reviewer’s report

Title: Barriers and facilitators of health promotion and obesity prevention at child health centers

Version: 1 Date: 19 August 2013

Reviewer: Joakim Ekberg

Reviewer’s report:

Minor Essential Revisions
The title of the manuscript is Barriers and facilitators of health promotion and obesity prevention at child health centres, but is better described in the aim on page 4: Barriers and facilitators of communication intended to promote healthy weight gain and prevent obesity. I would suggest adjusting the title to better match the content of the paper.

The results are structured according to the content analysis, but the paper is focused on barriers and facilitators. I would suggest making the barriers and facilitators more prominent in the structuring of the results.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
