Reviewer's report

Title: Recognition of delirium in ICU patients A diagnostic study of the NEECHAM confusion scale in ICU patients

Version: 3 Date: 31 October 2005

Reviewer: Marquis D Foreman

Reviewer's report:

General
The authors have been extraordinarily responsive to prior criticism.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
