Reviewer’s report

Title: Prediction of postoperative pain after radical prostatectomy

Version: 1 Date: 29 August 2008

Reviewer: Robert Slappendel

Reviewer’s report:

A graph of pain scores in the different groups would help the readers of the article to have a quick idea of the study outcome.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
