Reviewer’s report

Title: Patient and health professional views on rehabilitation practices and outcomes following total hip and knee arthroplasty for osteoarthritis: a focus group study

Version: 2 Date: 4 January 2010

Reviewer: Inger Holmstrom

Reviewer’s report:

This manuscript has now improved considerably, and the findings are a lot easier to grasp. It is however still unclear to me how the subthemes relate to the six major themes. Omit subthemes?

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
