Version: 3 Date: 30 June 2009

Reviewer's report:

This manuscript is in my opinion now ready to be published. I only have one comment: on page 12 second paragraph, there should be at least one reference after available literature (the last part of the sentence beginning with ‘For all 31 parameters…’).

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
