Reviewer’s report

Title: Mental health priorities in Vietnam: A mixed-methods analysis

Version: 2 Date: 9 June 2010

Reviewer: Mohan Isaac

Reviewer’s report:

The stated aim of the study is "to generate systematic, integrated report on the mental health priorities in Vietnam". While the paper has discussed a variety of "strengths and weaknesses" of the mental health system in Vietnam, prioritized listing of what needs to done to improve mental health system in Vietnam (based on the findings of the research) will add value to the report. It could be in the form of a set of "recommendations" emerging out of the study.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
