Research article: Evaluation of Computerized Health Management Information System for Primary Health Care in rural India

Dear Sir

Thank you for your mail and for giving me the opportunity to submit a revised version of the manuscript.

You have mentioned that the methodology does not adhere to the RATS guidelines for qualitative research. I have made the necessary changes (highlighted in red in the manuscript).

I am also sending responses and explanation of the paper separately according to the RATS format.

Hoping for a favourable response

Thanking you

Dr Baridalyne Nongkynrih
