Reviewer's report

Title: Impact of periodic health examination on surgical treatment for uterine fibroids in Beijing: a case-control study

Version: 2 Date: 30 August 2010

Reviewer: Andreas Hackethal

Reviewer's report:

The authors should provide a figure or table to highlighten the material and methods section of approaching women for the study! This would make the study much more understandable

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
