Title: Simple versus composite indicators of socioeconomic status in resource allocation formulae: the case of the district resource allocation formula in Malawi

Version: 2 Date: 18 October 2009

Reviewer: Augustine Asante

Reviewer’s report:

I have re-reviewed the article. The authors have responded adequately to all the issues raised in the first review. I think the paper is no doubt strengthened by the revisions made. I recommend that it should now be accepted for publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
