Reviewer's report

Title: Partnership disintegration for Primary Community-based Care Networks: a qualitative study for a national demonstration project

Version: 1 Date: 15 July 2009

Reviewer: Thomas T.H. Wan

Reviewer's report:

This case study reveals useful information on an important subject on organizational domain consensus. The discontinuity of network membership is influenced by multiple factors. The authors offer insightful reasons for the membership discontinuity during the early phase of the primary care network development.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
