Reviewer’s report

Title: Specialist involvement and referral patterns in ambulatory medical care for patients with dementia in Germany: results of a claims data based case-control study

Version: 2 Date: 13 April 2011

Reviewer: Matthias Riepe

Reviewer’s report:

The issues and concerns that I had with the original manuscript have sufficiently been addressed by the authors. The manuscript is much clearer now, and more informative.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
