Title: Physicians' propensity to collaborate and their attitude towards EBM: A cross-sectional study

Version: 3 Date: 27 May 2011

Reviewer: Phil J.M. Heiligers

Reviewer's report:

May, 27th 2011

Dear Editor,

In the revised version of the manuscript: 'Physicians' propensity to collaborate and their attitude towards EBM: a cross-sectional study' all my suggestions were carefully observed and explained. The manuscript gained in clarity by explicit interpretations of the results and by highlighting main findings in the discussion. My advice is to accept this revised version without further revision.

Yours sincerely,
Phil Heiligers

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
