Reviewer's report

Title: Different patient subgroup, different ranking? Which quality indicators do patients find important when choosing a hospital for hip- or knee arthroplasty?

Version: 3 Date: 29 September 2011

Reviewer: Ingeborg Strømseng Sjetne

Reviewer's report:

The authors’ revisions and arguments represent a satisfactory response to my previous comments.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
