Reviewer's report

Title: Early Intervention in Congenital Heart Disease has better outcome and resource utilization.

Version: 3 Date: 5 July 2011

Reviewer: Liaquat Ali Ali Khowaja

Reviewer's report:

Minor revisions
1. The title of the paper is still ambiguous.
2. Second sentence of the last para on page 4 is incomplete.
3. Page 5 para 2: loser socioeconomic class - this term may be corrected
4. Some sentences are still incomplete and may be checked.
5. Punctuation marks (specially commas and full stops) are not marked properly.
6. Structure of Table 1 may be revised as it looks odd to show p.values of half variables
7. variables including Cardiogenic Shock and Endocarditis may be excluded from table 2 as there is no data for those variables
8. Foot mark of table 2,3 and 4 a * sign is not marked anywhere in the tables.
9.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
