Reviewer’s report

Title: A systematic review of different models of home and community care services for older persons

Version: 2 Date: 26 January 2011

Reviewer: Kajsa Eklund

Reviewer’s report:

Minor essential revisions
Table 1 gives a good overview but needs an explanation on how to interpret; what does “multiple studies” mean? If it is two or more studies, shouldn’t there be at least two studies in each outcome variable?

Discretionary revisions
And it would be helpful for the reader to be able to identify the different studies in table 1.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
