Reviewer's report

Title: Networking between community health programs: effectiveness, barriers and enablers

Version: 5 Date: 27 March 2012

Reviewer: George Pariyo

Reviewer's report:

I would like to congratulate the authors for their efforts in addressing our reviewer comments. I think they have done a reasonable job and the manuscript has benefitted as a result.

1. Major Compulsory Revisions

There are no major compulsory revisions.

2. Minor Essential Revisions

I still find some minor typos which should be corrected e.g., page 5 "such at Uttarakhand" I think should be "such as..". Other minor changes needed are, "a priori" needs to be italicised, quotes from FGDs need to be in quotation marks " ...", etc. I found that the English and general write up is significantly better, clearly having benefitted from the services of the copy editor.

3. Discretionary Revisions

There are no discretionary revisions.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
