Reviewer’s report

**Title:** Impact of step therapy with 5-HT3 receptor antagonists on chemotherapy-induced nausea and vomiting: a retrospective cohort study

**Version:** 1  **Date:** 10 September 2011

**Reviewer:** vito lorusso

**Reviewer’s report:**

Although, the data presented are interesting because of the huge number of the patients observed, the paper is too long and should be adapted to a short communication

**Level of interest:** An article of limited interest

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
