Reviewer's report

Title: Stakeholder perceptions of a nurse led walk-in centre.

Version: 3 Date: 23 June 2012

Reviewer: Marie-Dominique Beaulieu

Reviewer's report:

I have reviewed the manuscript. Although authors claim they have addressed the main concerns, I still consider that the article is of limited interest because there is no analysis and no contextualization (ie: discussion of the overall literature on the subject, what their study adds). I leave it to the Editor to decide how this article can be meaningful to the readership.
