Reviewer's report

Title: Cost-effectiveness analysis of different rescue therapies in patients with lamivudine-resistant chronic hepatitis B

Version: 1 Date: 14 August 2012

Reviewer: Alessandra Maciel Almeida

Reviewer's report:

The manuscript presents an adequate analysis comparing the cost-effectiveness of rescue therapies among patients with LAM-resistant. The subject of the article is of great relevance, in particular from the perspective of the China Health Care. However, there are some aspects that need to be considering so as to be considered a published material.

Major Compulsory Revisions: Errors in interpretation (items 4.7, 5.1, 6.1 and 6.2. Discretionary Revisions, like clarifications can be realize in another items.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
