Reviewer's report

Title: An exploration of the enablers and barriers in access to the Dutch Healthcare System among Ghanaians in Amsterdam.

Version: 2 Date: 5 March 2012

Reviewer: jeroen W. knipscheer

Reviewer's report:

The paper has been improved substantially compared to the first version – I very much appreciate the efforts the authors have been through to adequately address the issues raised. One suggestion could be considered though, concerning the cultural validity of the procedure.

In conclusion, based on my reading and evaluation of the revised manuscript, I recommend BMC to accept the paper. I thank the authors for their considerations and wish them good luck with the paper.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
