Reviewer's report

Title: How do small rural primary health care services sustain themselves in a constantly changing health system environment?

Version: 3 Date: 13 March 2012

Reviewer: Peter Groenewegen

Reviewer's report:

I have read prof. Sturmberg's review of the original manuscript and the reply of the authors. I have also read the revised manuscript.

In my view the authors have done what they can to accommodate the issues raised by prof. Sturmberg. Provided the other reviewers were also satisfied with the revised manuscript, I don't see any obstacles to publish it.
