Reviewer's report

Title: What aspects of quality of primary care predict emergency admission rates? A cross sectional study.

Version: 5 Date: 16 October 2012

Reviewer: Felix Greaves

Reviewer's report:

My comments are based on an assessment of the revised manuscript. The authors have responded to my particular major issues raised in the review.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
