Title: Novel affordable medical devices: case studies of innovative companies from India

Version: 4 Date: 26 April 2013

Reviewer: Warren Kaplan

Reviewer's report:

This paper is much improved from my original assessment and I have no major or minor revisions. The only discretionary revision is actually the title. Perhaps the authors would consider something like this.

Case studies of innovative medical device companies from India: Barriers and enablers to development

In any event, that is up to the authors.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
