Reviewer's report

Title: Health system challenges to integration of mental health delivery in primary care in Kenya- perspectives of primary care health workers.

Version: 1 Date: 26 August 2013

Reviewer: Margaret Hogan

Reviewer's report:

Discretionary Revisions

(1) Authors could revisit the data to see if the perspective of the intervention group and control differed.

(2) The discussion and conclusion may address the world view/illness model of clients/patients and also perhaps clinicians share their world view and how this issue needs to be realistically addressed. It is the reality with probably up to 90% of patients’ access traditional and religious systems either as a sole system of care or concurrently with modern systems.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
