Reviewer’s report

**Title:** Assessment of the knowledge of public and private physicians regarding Tuberculosis management in Karachi

**Version:** 2  **Date:** 8 June 2013

**Reviewer:** Emmanuel Nwabueze Aguwa

**Reviewer’s report:**

Major Compulsory Revision: Please include a logistic regression after Table 4. Also change the title of Table 4 to reflect the data presented i.e. remove logistic regression analysis since it was not done in this Table. I would rather suggest the title: Factors affecting the knowledge of physicians regarding tuberculosis management in urban Pakistan.

Minor Essential Revision: Fig 1 appeared twice. Remove one of them. Include your study limitations as a subsection under the method section.

Discretionary Revision: Please indicate in the Tables which p values are significant (i.e. where p value is less than 0.05). See attached comment.

**Level of interest:** An article of limited interest

**Quality of written English:** Acceptable

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**

I declare that I have no competing interests
