Reviewer's report

Title: Quality of antenatal care services at public health facilities of Bahir-Dar Special Zone, Northwest Ethiopia.

Version: 3  Date: 1 July 2013

Reviewer: Sven Gudmund Hinderaker

Reviewer's report:

The paper is somehow improved, but many of my former numbered queries are not commented on.

The paper is not publishable without a proper explanation in methods of the outcome measurement.

The AIM is presented in introduction but the SPECIFIC objectives are not spelt out. They need to be Specific, Measurable, Action oriented, Realistic and Timescaled (=SMART objetvies)

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
