Reviewer's report

Title: Economic valuation of informal care on cerebrovascular accident survivors

Version: 8 Date: 25 July 2013

Reviewer: Nikki McCaffrey

Reviewer's report:

General comments
Overall, the authors have sufficiently addressed the previous comments.

Minor essential revisions
1 Although the authors have changed the paragraph which previously contained the phrase 'state-provided home care' I still think the paper would benefit greatly from explanation of what services/ tasks are included in 'social services home care' as such care may vary from country to country. This would aid interpretation for an international audience unfamiliar with the Spanish social system. For example, does social services home care include domestic and personal care? Or just domestic care? Is nursing care a component?

Discretionary revision
Discussion, paragraph 1 - maybe change 'solid' to 'robust'?

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
