Title: Translating and testing the Alberta Context Tool for use among nurses in Swedish elder care

Version: 1 Date: 6 February 2013

Reviewer: Jay Ford

Reviewer’s report:

This is a well written article that clearly articulates the process undertaken to evaluate the translation of the ACT in Swedish. After review, there are no major compulsory revisions needed for this paper. The only suggestion, which is a discretionary revision, would be to consider adding a sentence or two in the conclusion regarding next steps with the translated tool.
