Reviewer's report

Title: Factors influencing health care utilisation among Aboriginal cardiac patients in central Australia: a qualitative study

Version: 3 Date: 18 January 2013

Reviewer: Jeffrey Fuller

Reviewer's report:

Thank you for responding to my critique and I congratulate you on this work.

I did see on the top of p10 the use of the "framework" rather than "matrix" as the term - not sure if this was intended or an oversight.

The layout of the text has Primary Care and Hospital System Level Influencers before Interpersonal Level Influencers - but this ordering is the reverse in the matrix. It would be tighter to have these consistent.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
